Updated Definitions for Non-GAAP Financial Measures

Beginning with first quarter of 2026, Accelerant is updating definitions for the following non-GAAP financial measures: Adjusted Net Income, Adjusted earnings per diluted share, Adjusted EBITDA and Adjusted EBITDA Margin. The updated definitions exclude the impact of realized and unrealized investment gains or losses. Accelerant believes excluding the impact of realized and unrealized investment gains or losses from these non-GAAP financial measures improves the comparability between periods by eliminating items that have a high degree of variability from quarter to quarter. These updated definitions are expected to have a de minimis impact on Accelerant’s first quarter 2026 non-GAAP financial results. Additionally, Accelerant’s first quarter and full year 2026 financial guidance provided in March did not assume any non-recurring realized or unrealized investments gains or losses.
